

## Lightyear Production Release Notes

5.5.26

### New:

- New: When creating an appointment, Ford mobile service types (Mobile Service, Vehicle Pick Up, Vehicle Drop Off, Customer Pick Up) are now available in the Mobile Service Type dropdown when the Ford interface is enabled

### Bug Fixes:

- Fixed: BIN numbers edited and saved from the Inquiry window now update correctly in the Parts Ordering window.
- Fixed: New skill codes added for Intelligent Dispatching now appear immediately in the skill code list without requiring the window to be reopened.
- Fixed: The printer list in the "Select a Printer" dialog can now be scrolled with the mouse when many printers are available
- Fixed: After using "View as User" and logging back in, the Main menu now fully resets to the admin user's permissions
- Fixed: The Customer Value window can now be minimized
- Fixed: The "Close Invoice" verbiage on the ERC Save Invoice Options window now matches Classic
