

Lightyear Beta Release Notes

5.11.26

Parts & Service – ERC

New:

- New: When creating an appointment, Ford appointment types (Primary Service, Express Service, Mobile Service, and Fleet Service) are now available in the Appointment Type dropdown in the Schedule Service window when the Ford interface is enabled
- New: Administrators can now restrict users from logging into Lightyear Classic via a new access point manageable at the dealership level

Fixes:

- Fixed: Exporting the RO Summary list from ERC now correctly assigns all column headers in the exported file
- Fixed: The Control 2 field in the Accounting Distribution window now accepts more than 6 characters
- Fixed: The Estimator window labor rate field has been widened to display values greater than \$99.99 correctly
